

There is Spring in the air.

Days are getting longer, flowers are blooming, and Earth day is near.

Taking care of Earth can start where we live and our very own creek needs some TLC.

Come and help celebrate Earth day 2018 by picking up trash from our creek.

We will provide trash bags, refreshments and a special half hour talk on ecology and environmental issues related to Accotink Creek.

When: April 21st Saturday from 9 to 11am

Where: CCH part of the Accotink Creek.

(We will start and end at the Commons, Spring Lake Terrace & Andover Drive)

A special Lecture after the clean-up:

Guest lecturer, Philip Latasa from Friends of the Accotink Creek.

Hope to see you there!
