We have been very busy here this past month, what with all the calls about the corner of Old Post Road and Rt. #237, formation of a federation of civic associations for the City, collection of dues, etc. Both Major Young, Chief of Police and Mr. Simpson, City Engineer have been contacted about the traffic situation at Old Post Road. We see some improvement already, but I'm sure we would like to see a completely cleared corner, all the time... Area Rep's asked to have a little more time, if you have not been contacted as yet, rest assured they have tried and you were not at home, or something! They have been working hard--why don't you just drop \$2.00 in the mail as many people who are now paid members have done???
