

Beauty Spot of the month for May 2016

Congratulations to Pat and Stephanie Schneider of 10130 Spring Lake Terrace—you are the winners of the May 2016 Beauty Spot of the Month!

A unique feature of this yard is that it is planted entirely in perennials. That makes it not only a delight to the eye but also easy to maintain—a true win-win.

The beds along the front of the house are filled with azalea bushes blooming with white, fuchsia, and pink blossoms, along with American holly, rhododendron, and euonymus.

Interspersed in the sweep of irises blooming along the path to the front door are solar lights and small metal sculptures of frogs and butterflies.

In the front yard is a lovely dogwood tree in bloom and a pocket garden with a rose bush surrounded by daffodil greens and variegated hostas.

Stop by and see this beautiful yard!

Respectfully submitted,
Jennifer Judelsohn, Teresina Christy, Joyce Skoglund
