

Barbara Will, of 10105 Capeway Ct. has won the Beauty Spot of the Month for May 2010.

We came upon the lovely Will property one day while sleuthing for May's Beauty Spot, and the place reminded us a bit of a small forest in the midst of a city. This is an unusually large corner lot, and includes well placed evergreens in a variety of sizes, shapes and shades of green, e.g, moss and sage green, blue-green, and grass green (no folks, there is no chartreuse). Barbara has cleverly used a low-growing kind of evergreen as a ground cover.

Since we had found our Beauty Spot, we stopped for several minutes to feast our eyes on the cool, perfectly trimmed grass and to enjoy the serene loveliness of the grounds.

Congratulations, Barbara, and thank you for contributing so nicely to the beauty and interest of Country Club Hills. Polly Haecker for
