

The Beauty Spot of the Month for August goes to Clifton and Sharon Fry. Sharon and Clifton: How DOES your garden grow - so tall and lush and strong in all this heat? We don't see a single rose or caladium leaf lying panting on the ground.

At the front of the house in front of brightly colored caladium of all shapes and sizes, a welcoming brick path curves around to a back patio (which we unfortunately can't see from the road). This is a lovely summer place on which to rest one's eyes for a few moments. Thank you Clifton and Sharon - and Congratulations!
