

## Beauty Spot of the Month for September 2012

We awarded Hector and Katerzyna Gonazalez at 9915 Farr Drive the Beauty Spot for September.

What draws the eye to the Gonzalez property is the way the landscaping and redesigned house complement each in artful symmetry. The color taupe further binds the house and yard together. Pampas grass in full bloom blends with the house color, and these colors contrast wonderfully with the well chosen and well placed trees and evergreen shrubs. A splash of color from the red-purple crape myrtle at the right side provides a perfect highlight.

Our thanks to the Gonzalezes for adding to the interest and beauty of our community.
