## **Fairfax City Residents Flee Gas Line Leak**

Several residents in the Country Club Hills neighborhood of Fairfax City were briefly evacuated from their homes yesterday after a Virginia Electric & Power Co. work crew accidentally severed a natural gas line, Fairfax City Police said.

Police said that the crew was installing a utility pole in the 10000

block of Spring Lake Terrace about 1 p.m. when they struck a three-inch underground gas pipeline.

Residents from about 10 homes in the area were evacuated for more than half an hour while the damage was repaired.

Police said no injuries were reported in the incident.
